## PROCESS

Technological process

| | |
|---|---|
| Nama Produk | Aluminium anodized Automotive Accessories |
| Material | Aluminium Alloy 6061 / 6063 / 6082 / 6005 |
| Finishing | Anodizing Hard Anodizing Sandblasting Polishing Brushing |
| Ketebalan Anodizing | Standard 10 Microns (0.01mm) Hard Anodizing 25 Microns (0.025mm) |
| Warna Anodizing | Silver Black Gold Bronze Custom Color |
| Toleransi Dimensi | ±0.05 mm (Presisi tinggi) |
| Toleransi Anodizing | ±2 µm |
| Kekuatan Tarik | 270 – 310 MPa |
| Kekuatan Luluh | 240 – 270 MPa |
| Kekerasan | 75 – 95 HV |
| Ketahanan Korosi | Sangat baik (Salt Spray Test 500 – 1000 jam) |
| Aplikasi | Frame Bracket Housing Automotive Parts |
| Kemasan | Plastik Bubble Wrap Karton Pallet Custom Packaging |
| Lead Time | Prototype 7 – 14 hari Production 30 – 45 hari |
| Minimum Order | Prototype 1 pcs Production 100 pcs |
| Sertifikasi | ISO 9001 ISO 14001 RoHS Compliant |
| Contoh | Tersedia |
| Ekspor | Ready to Export Worldwide |
| Pembayaran | T/T PayPal Alibaba Trade Assurance |
| Website | www.aluminiumanodized.com |
