

PROCESS	Technology of process
1. Design and development	1. Design and development
2. Production	2. Production
3. Distribution	3. Distribution
4. Maintenance	4. Maintenance
5. Quality control	5. Quality control
6. Safety	6. Safety
7. Environmental protection	7. Environmental protection
8. Energy efficiency	8. Energy efficiency
9. Waste management	9. Waste management
10. Water management	10. Water management
11. Air quality	11. Air quality
12. Noise and vibration	12. Noise and vibration
