

## Title:[TOP QUALITY Custom Plastic Injection Mould](#)

### Parameters

product size 2305x160x35MM

Mold size FCI4550A90B90

Mould material S136H

describe: Injection mold is one of the important technology and equipment, production of various industrial products with the rapid development of plastic industry, as well as plastic products in aviation, aerospace, electronics, machinery, shipbuilding and automobile industries, products is becoming more and more high to the requirement of the mould

|                       |                                                                                                                                                                                                                                      |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Products              | <a href="#">metal part mold</a> , <a href="#">copper metal mold part</a> , <a href="#">aluminum metal sheet mold part</a>                                                                                                            |
| Materials             | S136,SKD61,2083,H13,SKD11 etc                                                                                                                                                                                                        |
| Dimensions            | According to customer's drawing                                                                                                                                                                                                      |
| Surface treatment     | Heat treatment, polishing, anodized, electroplating, spraying, and tufftriding and so on                                                                                                                                             |
| Packing               | Wooden box, or as per the customer's requirements                                                                                                                                                                                    |
| Processing equipments | Plastic Mold Parts, casting mold part, stamping mold part, drilling machine, horizontal precision mold part, chamfering machine, CNC cutting machine etc.                                                                            |
| Measure equipment     | Hardness tester, precision plug gague, gauge block, digital outside micrometer, outside micrometer, digital caliper, inside micrometer, inside dial indicator, dial vernier caliper, dial indicator, depth vernier caliper and so on |
| MOQ                   | negotiable                                                                                                                                                                                                                           |
| Precision/ Tolerance  | +/-0.01mm                                                                                                                                                                                                                            |
| Payment               | T/T 50% deposit in advance ,50% T/T before shipment ;or others.                                                                                                                                                                      |
| Business scope        | CNC center machining, cnc machining, cnc drilling, cnc turning, grinding, tapping, mould design and processing, casting, sheet mental working etc                                                                                    |
| Application           | Automation machine, medical device, industrial machine, automobile, electric appliance, and other industries, aluminum die casting parts, auto parts                                                                                 |
| Ports                 | ShenZhen China                                                                                                                                                                                                                       |
| Delivery              | 20-25 days after T/T 50% deposit                                                                                                                                                                                                     |
| Main equipments       | cnc machine center                                                                                                                                                                                                                   |

1.Name: [Factory Price OEM mold parts](#)

2.Process: custom mold part, cnc machining

3.Material: S136,SKD61,2083,H13,SKD11 etc

4.Surface:Polishing, powder coated, anodized, nickle plating, chromate etc

5.Tolerance: can reach to +/-0.01mm

6.Quality control: 100% inspected

7.Specification: OEM serice, strictly per drawing and samples

8. Sample delivery time: 25-30 days, per products.

9. Application: mold parts,mining accessories, machinery accessorial, industrial, auto parts,etc

10. Customer: USA,Canada, Austrial, EU etc.

11. Certification: ISO 9001

### [Our Advantage](#)

1. 10 years experience with ISO certified

2. All kinds of material is available

3. All kindls of sureface finishment is available

4. High quality with competitive price

|                                                        |
|--------------------------------------------------------|
| 5. Fast delivery time                                  |
| 6. Sample available                                    |
| 7. Have export experience to all over the world        |
| <b>Our Services</b>                                    |
| Aluminum die casting parts sample: Can supply for test |
| Stamping parts packing: Standard packing               |
| Injection parts certification: ISO9001                 |
| Casting parts quality: Strictly quality control        |
| Spining parts OEM is welcomed                          |
