

PROCESS

Technological process

Process	Equipment	Materials	Procedures
1. Preparation of samples	1.1. Preparation of samples	1.2. Preparation of samples	1.3. Preparation of samples
2. Analysis of samples	2.1. Analysis of samples	2.2. Analysis of samples	2.3. Analysis of samples
3. Interpretation of results	3.1. Interpretation of results	3.2. Interpretation of results	3.3. Interpretation of results
4. Reporting of results	4.1. Reporting of results	4.2. Reporting of results	4.3. Reporting of results
5. Archiving of results	5.1. Archiving of results	5.2. Archiving of results	5.3. Archiving of results
6. Review of results	6.1. Review of results	6.2. Review of results	6.3. Review of results
7. Feedback of results	7.1. Feedback of results	7.2. Feedback of results	7.3. Feedback of results
8. Improvement of results	8.1. Improvement of results	8.2. Improvement of results	8.3. Improvement of results
9. Conclusion of results	9.1. Conclusion of results	9.2. Conclusion of results	9.3. Conclusion of results
10. Final report	10.1. Final report	10.2. Final report	10.3. Final report
